International Journal of Fracture

CONTENTS OF VOLUME 68 (1994/5)

Vol. 68, No. 1, 1994

Effects of non-singular stresses on crack-tip fields for pressure-sensitive materials, Part 1: Plane strain case	M. KIM and J. PAN	1
Finite element study of an interface crack between an elastic-perfectly plastic solid and a rigid substrate	Y. HUANG and H.W. ZHANG	35
The measurement of *J-R* curves and *J*-integral values at crack initiations for metallic materials with three curve method of single specimen	MA HANG, WANG ZHENG and ZHU LIANG	45
An asymptotic approach applied to a longitudinal crack in an adhesive layer	LESLIE BANKS-SILLS and RAFAEL SALGANIK	55
Comments on the eigenvalue formulation of problems with cracks, V-notched cracks, and corners	WILLIAM C. CARPENTER	75
Comparison of mode I and mode II elastic-plastic fracture toughness for two low alloyed high strength steels	Y.W. SHI, N.N. ZHOU and J.X. ZHANG	89

Vol. 68, No. 2, 1994

An experimental and numerical investigation of ductile crack growth characteristics in surface cracked specimens under combined loading	J. FALESKOG	99
Representation of stress intensity factors by path integrals of the first stress invariant or anti-plane displacement for general two-dimensional static problems	XIAOYUAN DONG	127
Tearing resistance of multi-layer plastic films	R.-Y. WU, L.D. McCARTHY and Z.H. STACHURSKI	141
A theoretical investigation into the nucleation of stable crack precursors in polycrystalline ice	MAO S. WU and JIAN NIU	151
The steadily propagating viscoplastic crack with elastic unloading	T.J. DELPH	183

Vol. 68, No. 3, 1994

Stress intensity factors for curvilinear cracks loaded by bending and torsional moments	J.C.W. VAN VROONHOVEN	193
Analysis of stitched laminated ENF specimens for interlaminar mode II fracture toughness	L.K. JAIN and YIU-WING MAI	219
Damage zones based on Dugdale model for materials	YANGHU MOU and R.P.S. HAN	245
Dynamic analysis of three point bend specimens under impact	P.R. MARUR, K.R.Y. SIMHA and P.S. NAIR	261
Fatigue tests and life prediction of 16 Mn steel butt welds without crack-like defect	ZHENG XIULIN, LÜ BAOTONG, CUI TIANXIE, LÜ XIAOYAN and LIN CHAO	275

Vol. 68, No. 4, 1995

Surface and internal cracks in a residually stressed plate	R.D. CORDES and P.F. JOSEPH	287
Three-dimensional analysis of interface cracks in rubber materials	R.M.V. PIDAPARTI and G. PONTULA	315
Elastic analysis of an edge dislocation and two collinear cracks of different length	S.-T. SHIUE, T.-Y. ZHANG and S. LEE	333
A statistical analysis of the tensile failure and hybrid effect of an intraply hybrid composite	Q.-D. ZENG	351
Investigations of fracture instability in crack growth for several metals – Part II: An energy approach for fracture instability analysis of crack growth	X.C. YIN and T.G. CHEN	363
On strength scaling of composites with long aligned fibres	J. BOTSIS, C. BELDICA and D. ZHAO	375
